important FREE one-day event
at the

## **CASCADE THEATRE**

1733 Market Street Redding, CA 96001 Friday, August 5, 2016

Doors open at 9:20 a.m.

Meet the director/producer team of the must-see film that will make you question everything you thought you knew about vaccines.

Access this information before it is censored. Meet the experts! Ask questions!

A full day of informative presentations and film screenings featuring two showings of VAXXED at 1:00 p.m. & 6:45 p.m.

Presentations and Q&A sessions hosted by Dr. Andrew Wakefield,
Del Bigtree, Polly Tommey, Dr. Sherri Tenpenny, Kevin Shipp,
and Dane Wigington. FREE VAXXED and geoengineering
educational materials and geoengineering DVDs.

Watch the Trailer. Get Involved.

#### Why is VAXXED a MUST-SEE documentary?

#### Because our children's health, welfare, and lives are at stake.

The shocking information presented in VAXXED is not theory, hypothesis, or conjecture but statistical fact. This information has come from a senior vaccination safety scientist from the Centers for Disease Control (CDC). Dr. William Thompson has confessed on the record about the rampant fraud, corruption, and outright lies that are emanating from the CDC in regard to the vaccine safety issue. There are unimaginably powerful organizations that are completely committed to hiding the truth from an unsuspecting population. There are countless media sources (controlled by the same core organizations) who are tasked with convincing the masses that nothing is wrong. Many in our society are completely invested in the deception because their paychecks and pensions depend on their compliance with the official narrative.

"My name is William Thompson. I am a Senior Scientist with the Centers for Disease Control and Prevention, where I have worked since 1998. I regret that my co-authors and I omitted statistically significant information in our 2004 article published in the journal Pediatrics."

"It's all there — this is the lowest point in my career, that I went along with that paper. I have great shame now when I meet families of kids with autism because I have been part of the problem."

"Senior [CDC] people just do completely unethical, vile things, and no one holds them accountable."

If we truly love our children, our top priority MUST be to protect their health and welfare. It is our responsibility to objectively investigate the facts — no matter where those facts lead.

Heavy metal and chemical contamination is rapidly accumulating in us all; the human health effects are already catastrophic. Vaccination adjuvants (additives) are a major source of this contamination. The ongoing global climate engineering assault is mathematically by far the largest single source of environmental heavy metal contamination of all. Aluminum nanoparticles are a primary element named in numerous climate engineering patents; lab tests from all over the world prove this highly toxic heavy metal is now saturating our breathable air column in bioavailable form (nearly 50 lab tests from Shasta/Siskiyou counties alone). Legal action updates will be given at this event. We urge you to investigate the dire issues at hand and help with the critical effort to educate others.
